PROFESSIONAL SUMMARY

Full Stack Software Developer with a Bachelor of Computing Systems (2025) from Unitec Institute of Technology. Experienced in developing and deploying responsive web applications using React.js, JavaScript, Material UI and Firebase.

Hands-on development experience includes SchoolHIVE Marketplace NZ, a collaborative capstone project, and Quinelo, an independently developed AI-powered quiz generation platform for teachers.

Interested in full-stack and front-end development, with a focus on building practical, user-friendly applications from concept through to deployment.

TECHNICAL SKILLS

Frontend Development

- React.js
- JavaScript
- HTML5 & CSS3
- Material UI (MUI)
- React Router
- Responsive Web Design

Backend

- Firebase Authentication
- Cloud Firestore
- Firebase Realtime Database
- AI API Integration
- Django – academic / coursework exposure

Tools

- Git & GitHub
- Vercel
- Visual Studio Code
- Android Studio
- Agile-style team workflows

Core Skills

- Problem Solving

- Critical Thinking
- Team Collaboration
- Communication
- Adaptability
- Time Management

PROJECT EXPERIENCE

SchoolHIVE Marketplace NZ

Capstone Project | July 2025 – November 2025

Collaborated with a development team to design and build a web-based marketplace platform for New Zealand schools as part of a Unitec Capstone Project.

Key Contributions:

- Developed responsive user interface components using React.js, CSS, and Material UI
- Built and enhanced homepage and marketplace listing pages
- Ensured cross-device compatibility across desktop, tablet, and mobile devices
- Collaborated using GitHub version control workflows
- Participated in project planning, testing, and milestone delivery within a structured development environment
- Contributed to the successful completion and presentation of the project
- Achieved 1st place at the Unitec Whānau Day Showcase in November 2025

Quinelo – AI Quiz Generation Platform

Founder & Full Stack Developer | 2026 – Present

Independently designed and developed an AI-powered web application that enables teachers to generate classroom-ready quizzes.

- Built the application using React, Material UI, Firebase Authentication and Cloud Firestore
- Integrated AI-powered quiz generation through serverless API endpoints
- Developed user authentication, document management and subscription functionality
- Implemented usage limits for AI generation
- Deployed and maintained the application using Vercel and a custom domain at www.quinelo.co.nz
- Launched the platform into closed beta and continued to develop the product based on testing and feedback.

EDUCATION

Bachelor of Computing Systems (Completed 2025)

Unitec Institute of Technology

Relevant Study Areas:

- Software Development
- Web Application Development
- User Interface Design
- Software Engineering Principles
- Mobile Development

New Zealand Diploma in Information Systems (Completed 2023)

Unitec Institute of Technology

WORK HISTORY

AI Lab Tutor

Success Tutoring New Lynn | July 2026

- Planned and delivered interactive AI workshops for primary-school-aged students
- Taught introductory AI concepts, prompt writing, problem solving and responsible AI use
- Created presentations, demonstrations and hands-on activities to support student learning
- Guided students through practical activities using AI tools

Pack House Assistant (Seasonal, Part-time)

Danube Orchards – Whenuapai, Auckland

Nov 2014 – Mar 2026

- Performed quality control checks on strawberry punnets
- Packed and prepared produce for retail distribution
- Worked efficiently in a fast-paced production environment
- Maintained productivity and accuracy within team targets

Warehouse Assistant

New Zealand Insulators

May 2017 – Feb 2023

- Assembled and bundled insulation components for production

- Assisted with dispatch and inventory management
- Operated forklift equipment safely and efficiently
- Maintained organised warehouse operations
