- Responsive Web Design

Core Skills

- Problem Solving
- Critical Thinking
- Team Collaboration
- Communication
- Adaptability

- Time Management

PROJECT EXPERIENCE

SchoolHIVE Marketplace NZ

Capstone Project | July 2025 – November 2025

Collaborated with a development team to design and build a web-based marketplace platform for New Zealand schools.

Key Contributions:

- Developed responsive user interface components using React.js, CSS, and Material UI
- Built and enhanced homepage and marketplace listing pages
- Ensured cross-device compatibility across desktop, tablet, and mobile devices
- Collaborated using GitHub version control workflows
- Participated in project planning, testing, and milestone delivery within a structured development environment
- Contributed to the successful completion and presentation of the project

EDUCATION

Bachelor of Computing Systems (Completed 2025)

Unitec Institute of Technology

Relevant Study Areas:

- Software Development
- Web Application Development
- User Interface Design
- Software Engineering Principles
- Mobile Development

WORK HISTORY
